2:15 – 3:15 pm **Cornell Volunteer Core Competencies**

- **Lead a Community: Reflection**

In addition to leading teams, Cornell graduates and volunteer leaders are often tasked with anchoring their work in evaluation during times of organizational shifts. As such, the dual skills of assessment and reflecting on success are core elements of leading communities. In this session, participants will learn how to assess organizations during times of change, including building strengths. You will be led through a discussion on how to reflect on your successes and your challenges and help you decide how to take that next step.

Presenters: Allan Filipowicz, Clinical Professor of Organizations and Associate Dean for Executive Education, SC Johnson College of Business, Julie Vultaggio '02

- **Lead by Example: Embrace Risk**

Cornell's Alumni Affairs organizations are successful. No one questions that. But, what would happen if we pushed the needle just a little bit further? What could we accomplish? The Cornell Team and Leadership Center will guide us through how taking risks can lead to long-term success and how you can be innovative in embracing possibilities.

Presenters: [Cornell Team and Leadership Center](#), Jennifer Shirk Warner '02

- **Lead Others: Understanding Microaggressions**

Through defining, discussing, and understanding microaggressions this session will help participants navigate, interrupt, and respond to implicit and explicit bias. Currently, we have the most diverse alumni community in Cornell's history. Understanding the impact of the interactions we have with each other will help to advance the mission of the university and our alumni communities.

Join the Regional Peer Advisors for a timely discussion on engaging multi-generational alumni through your club activity. With Baby Boomers and Millennials coming together, how do you create programming that appeals to all? Can you appeal to all? Also, what role does social media play in engaging our alumni and how do you best utilize the many platforms? Join us to discuss these topics and brainstorm ideas on how to make sure we aren't leaving anyone out in this day and age of online living.
