Touchdown Cube-Toy
How to build

What you need:
- A4 / US letter paper or cardstock
  Recommended paper thickness: 120gsm - 160gsm
- Printer
- Scissors or cutter
- Craft glue
- Folding bone or thick needle
- Ruler

1. Print, Score & Cut

Print the pattern. Using a folding bone or a thick sewing needle and a ruler, score along the folding lines (illustrated in blue) so you can easily fold the pieces.

Now cut the pattern pieces along the outer edge.

2. Fold & Glue

Fold and glue each building block of the figure separately. Apply the glue on the glue flaps as shown in the illustration.

3. Assembly

Put all the individual pieces together. Refer to the small labels that indicate which piece goes where and assemble the figure in the correct order.
