

Sense and Sustainability: How Intellect and Action Can Contribute to a Promising Future

CAU Summer 2024, Week 1, July 7-13, 2024

Faculty: Roberta Moudry '81, M.A. '90, Ph.D. '95, Architectural Historian

In advance of our July week: please develop for yourself a working definition of sustainability. You might consider writing it out in a short paragraph. Also, what do you think is the most pressing area of sustainability work?

Soak up what you can in news sources and magazines about sustainability topics. If you have a good read/film/podcast to recommend, please bring that with you to Ithaca.

Below is a short list of books and authors you may want to look at. There will be a day-specific list of further reading/viewing available in class.
