**Dr. Holger Klinck** is the John W. Fitzpatrick Director of the K. Lisa Yang Center for Conservation Bioacoustics at the Cornell Lab of Ornithology. He joined Cornell University in December 2015 and took over the directorship of the Yang Center in August 2016. Dr. Klinck is also a Faculty Fellow with the Atkinson Center for a Sustainable Future at Cornell University, a National Geographic Explorer, and holds a Courtesy Professor position at Oregon State University (OSU). Before moving to the U.S. in early 2008 for a postdoctoral position at OSU, he was a Ph.D. student at the Alfred Wegener Institute for Polar and Marine Research in Germany. Dr. Klinck's graduate work focused on developing the Perennial Acoustic

Observatory in the Antarctic Ocean and studying the underwater vocal behavior of leopard seals. His current research focuses on developing and applying hard- and software tools for passive-acoustic monitoring of terrestrial and marine ecosystems and biodiversity. One of Dr. Klinck's primary goals is to enable researchers around the globe to acoustically monitor habitats and wildlife at large ecologically relevant scales to support data-driven conservation. Lastly, he has extensive experience working in polar regions and led a Cornell's Adult University (CAU) trip to the Antarctic Peninsula in early 2024.

# Your Itinerary

DAY 1 ●

## OSLO, NORWAY

Arrive in Oslo and transfer to our centrally located hotel. After lunch, our introduction to Norway begins with a tour of Oslo, including a visit the Fram Museum, dedicated to the wooden ship sailed by Norwegian pole explorers such as Nansen and Amundsen. This evening, join your fellow travelers for a welcome cocktail reception and dinner. (L,D)

DAY 2 ●

## OSLO/LONGYEARBYEN/EMBARK

Depart Oslo on a charter flight (at an additional cost) and enjoy breathtaking vistas over icy fjords and the Barents Sea enroute to Longyearbyen. On arrival to this Arctic outpost, explore the world's northernmost settlement, which has morphed from a coal mining hub to a base for exploration and science in recent history. Witness daily life and delve into this history before embarking *National Geographic Resolution*. (B,L,D)

DAYS 3-8 ●

## EXPLORING SVALBARD

We operate in true expedition style, letting nature dictate our day-to-day movements within an immense Arctic wonderland. Our fully stabilized, ice-class expedition ship probes deep into the ice where the polar bears forage, walrus sun themselves, and the Svalbard reindeer roam. Join our spotters on the Bridge as we scan the floes and islands for these iconic creatures, along with bearded and ringed seals; Arctic fox; and whales that call these waters home, like beluga, fin, and minke. There's no greater thrill than a sighting that brings everyone rushing to the bow or Bridge for a close-up view. Sail deep into protected bays and fjords, where even a novice kayaker can comfortably paddle surrounded by sparkling bergs and dramatic mountains. Video from our Remotely Operated Vehicle (ROV) allows you to peer into the mysterious world that exists 1,000 feet below us during Recaps with our multi-talented field staff. (B,L,D)

DAY 9 ●

## LONGYEARBYEN/DISEMBARK/OSLO

Disembark in Longyearbyen. Fly back to Oslo on a private charter flight, enjoy dinner with fellow guests, and overnight at the Radisson Blu Airport Hotel. (B,L,D)

DAY 10 ●

## OSLO

After breakfast, proceed to the airport for the return flight home. (B)

## OPTIONAL EXTENSION

Norway's Fjords: Pre-voyage, 5 days. Call for details.
